

# LEVEL UP SNOWFLAKE ECOSYSTEM

# RESOURCE: Partner Connect In-Account Snapshot

The screenshot shows the Snowflake Partner Connect interface. On the left is a navigation sidebar with a user dropdown at the top showing 'ACCOUNTADMIN' (annotated with a red circle and '1'). Below it are menu items: Worksheets, Dashboards, Streamlit Apps, Data, Marketplace, Activity, Admin (annotated with a red circle and '2'), Usage, Warehouses, Resource Monitors, Users & Roles, Security, Partner Connect (highlighted in blue and annotated with a red circle and '3'), Help & Support, and Classic Console. The main content area is titled 'Partner Connect' (indicated by a red arrow). It features a search bar, filter buttons for 'All Categories', 'Business Intelligence', 'CI/CD', 'Data Integration', and 'More', and buttons for 'Providers All' and 'Status All'. Under the 'Business Intelligence' category, there are four provider cards: Domo, Sigma, Sisense, and ThoughtSpot. Under the 'CI/CD' category, there are two provider cards: DataOps.live and SqlDBM.

Search & AI-driven Analytics on all your data.

**CI/CD**

**DataOps.live**  
CI/CD and DataOps for Snowflake. Truly agile data ingestion, modeling and transformation.

**SqlDBM**  
Cloud Data Modeling for Snowflake. Develop DB/DW without writing a single line of code.

## Connecting to Partner Connect

### Snowsight:

1. Switch to role >> ACCOUNTADMIN
2. Select Admin
3. Select Partner Connect

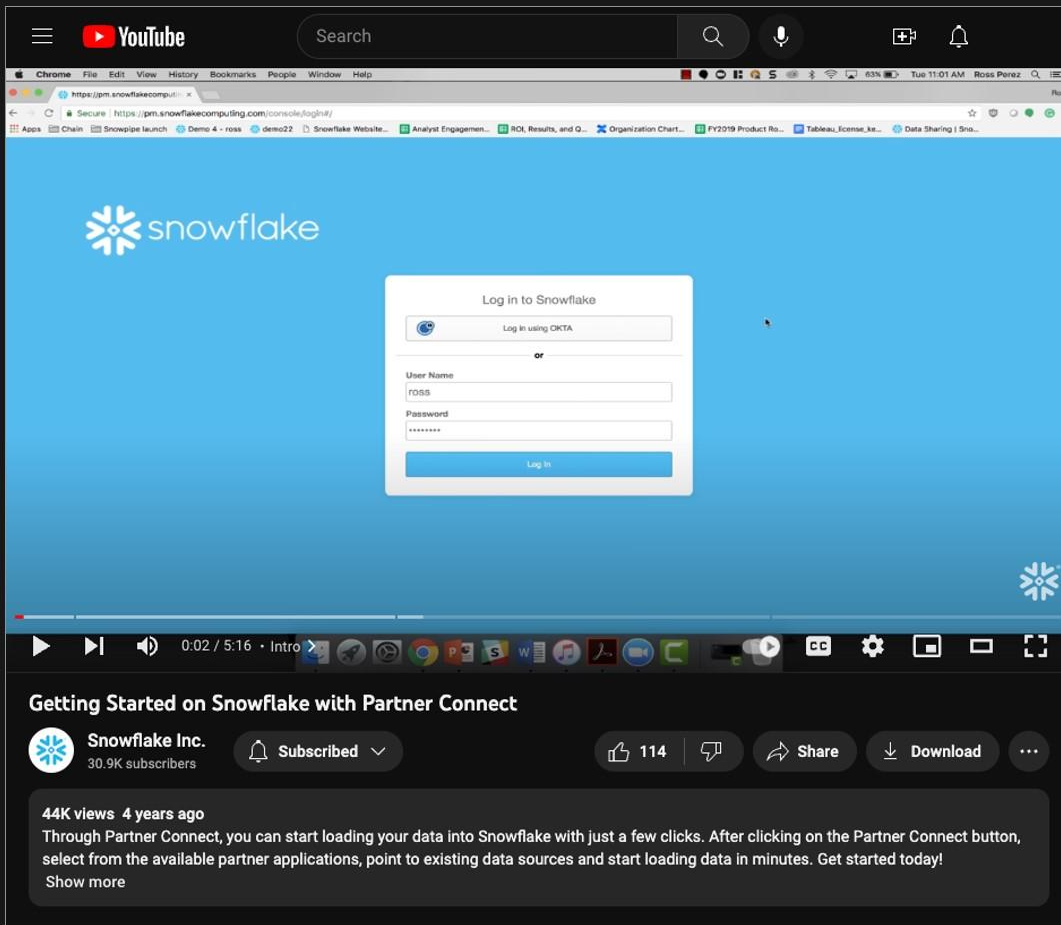

# RESOURCE: Partner Connect Introductory Video

If you have already used Partner Connect, or feel you understand its purpose quite well, you will probably want to skip this video.

If you do not fully grasp what Partner Connect is, you can watch this video to get a quick overview.

<https://www.youtube.com/watch?v=8sO53KczJ4M>

The screenshot displays a YouTube video player interface. At the top, the YouTube logo and search bar are visible. The video content shows the Snowflake login page, which includes the Snowflake logo and a 'Log in to Snowflake' form. The form has a 'Log in using OKTA' button, a 'User Name' field with the value 'ross', and a 'Password' field with masked characters. Below the form is a 'Log In' button. The video player controls at the bottom show the video is at 0:02 / 5:16. The video title is 'Getting Started on Snowflake with Partner Connect'. The channel name is 'Snowflake Inc.' with 30.9K subscribers. The video has 114 likes and was uploaded 4 years ago. The description text reads: 'Through Partner Connect, you can start loading your data into Snowflake with just a few clicks. After clicking on the Partner Connect button, select from the available partner applications, point to existing data sources and start loading data in minutes. Get started today! Show more'.

## RESOURCE: Ecosystem Online Documentation

Take a look at the online documentation to check for the most up-to-date information and learn about the functional categories we use to classify partners and connectors.

**Look for the special symbol that denotes Partner Connect partners.**

# Snowflake Ecosystem

Snowflake works with a wide array of industry-leading tools and technologies, enabling you to access Snowflake through an extensive network of connectors, drivers, programming languages, and utilities, including:

- Certified partners who have developed cloud-based and on-premises solutions for connecting to Snowflake.
- Other 3rd-party tools and technologies that are known to work with Snowflake.
- Snowflake-provided clients, including [SnowSQL](#) (command line interface), connectors for [Python](#) and [Spark](#), and drivers for [Node.js](#), [JDBC](#), [ODBC](#), and more.

# RESOURCE: Snowflake Partners Web Page

Take a look at the Snowflake's Web page that talks about Partners.

Partners that develop software or SaaS options are called Technology Partners.

Snowflake has a second kind of partner, listed on the Partners web page. Visit this page and scroll down to read about Solutions Partners.
